TRENT VALLEY WINDOWS

YOU'RE IN SAFE HANDS WITH **TRENT VALLEY**

Trent Valley, the nation's leading installer, guarantees a job well done every time. Investing in your home can be daunting, and choosing the right home improvement company is crucial.

Award Winning Service

We're proud to be named Installer of the Year for three consecutive years at the G Awards, the industry's top accolade. What does this mean for you?

No. 1 Design Service

Our showrooms now boast a cutting-edge 3D design studio, letting you visualise your replacement roof before purchase. With our innovative design software, you can customise your roof by choosing from a huge selection of styles and finishes.

No. 1 Customer Care

Trent Valley takes full project ownership. You'll have a dedicated project manager, regular updates, and the 'best' most skilled tradespeople from the outset.

A Trusted Partner

We hold CHAS, Constructiononline Gold, and Ultra Installer accreditations, typically reserved for large-scale builders. These awards reflect our unwavering commitment to safety, quality, and operational excellence. Combined with our planning expertise, we're your top choice.

No. 1 Installation

Our pioneering review system monitors work and site conditions, ensuring minimal disruption to your home and garden. With rigorous safety and training, we deliver excellence.

Care & Attention

Your project gets a dedicated Building and Fitting Team, which can include electricians and plasterers if required. We protect your home during installation and leave it spotless afterward.

The Trent Valley Team

When upgrading your conservatory there are three options available to you: **re-roof, replace,** or **rebuild.**

Re-roof. Home, *made more*

The simplest way to upgrade is with a new roof. Our roofs are high performance, quality structures - we never under or over clad an existing roof. You'll be surprised by how dramatically it enhances both the comfort and overall elegance of your space. You'll be able to enjoy your room all year round.

Re-place. Home, *made better*

A roof replacement presents an ideal moment to transform your room entirely. Replace and upgrade your windows and doors for a truly elevated finish.

Re-build. Home, *made complete*

For a truly transformative upgrade, your conservatory can be entirely rebuilt, with the option to reimagine it as an orangery or a seamless home extension.

Trent Valley Windows specialises in bespoke living spaces. Speak with your Sales Designer or view our New Living Space brochure for more information.

A BEAUTIFUL ROOF
A BETTER ROOM

Is your room too hot in the summer and too cold in the winter? Do you want to add value to your home and enhance the way it looks?

If you're ready to transform your room into a fully usable living space, a replacement roof from Trent Valley Windows can help you achieve that vision with quality and confidence.
Various options are available to you when choosing to re-roof your conservatory. Some can be direct replacements; others need changes to the supporting structure – all will give you a comfortable living space that can be enjoyed all year round.

CLASSIC GLASS ROOF

To flood your single-story room with natural light, a glass roof is the ultimate choice. Our customer's most favoured roof style – refined and contemporary it delivers uninterrupted views while gently softening the sound of rain and hail.

All of this is achieved without compromising exceptional thermal performance and insulation, ensuring your space remains effortlessly comfortable throughout the year.
The roof is made to a top specification that has high strength and will have a load bearing capacity calculated to suit your location. High altitude or coastal areas prone to winds and snow can still benefit from this type of roof.

You will receive a maintenance guide, certificate of authenticity, BBA approval and a 20-year manufacturer guarantee with every roof.

WHAT MAKES OUR GLASS ROOFS SPECIAL?

QUALITY MATERIALS AND ATTENTION TO DETAIL

- The heavy glass loads are secured with glazing stops/clips.
- Twin bolt fixings are used.
- Twin skinned top cap provides improved thermal performance and hides gasket, providing a better seal.
- Speedlock + hub gives security & weather proofing.
- Bolster and posts recommended for larger roof spans.

BESPOKE DESIGN

- Offer insulated pelmet – creates a room feel.
- Can customise the roof line - cornice hides gutter.
- Offer two high quality ridge styles – classic ridge for roofs between 15-41 degrees and the slimline ridge on a 25 degree roof pitch.
- Super-insulated columns – can make the conservatory as warm as an extension.

HIGH-PERFORMANCE GLASS

- Offers great insulation, preventing heat loss during periods of colder weather – look for a low U-value, the lower the number, the greater the insulation.
- Provides solar heat reflection, which prevents the heat from the sun passing through the glass.
- Controls light transmission through the glass.
- Contains self-clean glass technology that reduces the need for cleaning.
- Available in 6 colours: aqua, neutral, blue, clear, privacy and blue ultra.

CLEAR

BLUE, BLUE+ & BLUE ULTRA

NEUTRAL & NEUTRAL+

AQUA & AQUA+

PRIVACY & PRIVACY+

We will undertake a SAP assessment where needed and organise building regulation approval to ensure your solid roof is fully compliant.

SOLID AND SOLID HYBRID ROOFS

A solid roof will turn your old conservatory into a comfortable, thermally efficient and stylish space for use all year round.

It's design flexibility allows you to create a roof that blends with your home. With the ability to be built in almost any shape or size it offers the ultimate in design flexibility as you can also insert shaped glass anywhere in the contemporary grey roof. Each roof is engineered to withstand snow and wind loads specific to your region.

Inside, the vaulted, plastered ceiling delivers a seamless finish that feels like a true extension of your home rather than a traditional conservatory. The solid/hybrid roof can be finished with lighting and detailing that harmonise beautifully with your existing décor - making your new space feel thoughtfully designed, cohesive and effortlessly luxurious.

WHAT SETS OUR SOLID/HYBRID ROOFS APART?

TRANSFORM YOUR CONSERVATORY INTO AN EXTENSION

- The combined solid and glass roof option is our most configurable roof allowing for unique and innovative design to suit your needs.
- Natural light wherever you want it.
- Updating your conservatory with a solid/hybrid roof can change your structure into a building regs approved extension; helping increase the value of your home. It's an investment that enhances both your living space and your property's overall worth.

QUALITY MATERIALS & INSTALLATION

- Solid panels are composite and finish a multi-layered, thermally-efficient construct.
- High performance glass as standard – see glass roof section for more information.
- No movement in roof bars and joints.
- Roof is lightweight, structurally sound and stops condensation.
- Quick to install and be made watertight, minimising disruption.
- Fire tested – best in class.
- Guaranteed for 20 years.

TILED & TILED HYBRID ROOFS

Create a beautiful home extension that you can use all year round when you fit a Tiled Roof to an existing glazed conservatory. The Tile Roof will blend with your existing property for a super-strong and thermally-efficient roof structure that is built to last.

With a range of slate-style, shingle and traditional roof tile options, the Tiled Roof has a look to complement any home. You can also add opening roof light windows or large rectangular glazed panels for a touch of light and a feeling of space – that all-important finish. Inside, the vaulted, plastered ceiling creates a welcoming atmosphere that feels just like any other room in your home. With your choice of lighting and finishing details, the interior of the tiled roof can be styled to blend effortlessly with your existing décor, creating a space that feels harmonious, inviting and perfectly suited to everyday living.

WHY CHOOSE OUR TILED ROOF SYSTEM?

TRANSFORM YOUR CONSERVATORY INTO AN EXTENSION

- Tiled roof system that can be finished with
    1. Shingle – a metal tile that is finished to look like shingle.
    2. Slate-style – a pvc tile that is finished to look like slate.
    3. Customer's-own tiles to exactly match to existing building.
- Can include high performance rectangular glass panels or opening roof light window
- Roof can fit most building shapes and sizes.
- The roofs are lightweight and structurally sound.
- Updating your conservatory with a tiled or tiled hybrid roof can change your structure into a building regs approved extension; helping increase the value of your home. It's an investment that enhances both your living space and your property's overall worth.

QUALITY MATERIALS & INSTALLATION

- Materials are from the highest standard – self-healing steel, oil-tempered hardboard, structural grade expanded EPS, earthwool insulation, insulated beams.
- Unrivalled thermal efficiency U value 0.15.
- Fully insulated eaves, beams, hips and ridges.
- Super strong.
- Fire tested and fast to fit.
- High performance glass as standard.
- Guaranteed for 20 years.
- This system is now used in national new-build housing schemes.

We will undertake a SAP assessment where needed and organise building regulation approval to ensure your solid roof is fully compliant.

FLAT ROOF ATRIUMS

When looking to re-build your conservatory we can incorporate an atrium or lantern-style flat roof. As specialists at the forefront of bespoke living space design and construction, this most fashionable form of living can be installed as part of your build.

An atrium or lantern roof draws daylight deep into your home, even in the centre of a property where vertical windows can't reach. The result is a brighter, more uplifting living space that feels open and airy throughout the day.

The addition of a flat roof will give your design extra strength and the utmost in simplicity. It can accommodate bi-folding doors or large sliding doors to make it feel extra bright and spacious.

We can even give you the option of having an asymmetrical finish with an overhang to establish an undercover seating area.

Beyond comfort and beauty, an atrium or lantern roof can enhance your property's desirability, offering a premium feature that appeals strongly to potential buyers.

WHAT SETS OUR FLAT ROOF ATRIUMS APART?

CREATES A SENSE OF SPACE

By adding height and architectural interest, a lantern roof enhances the feeling of volume in a room. The elevated glazing naturally draws the eye upward, making kitchens, dining areas, and extensions feel larger and more impressive.

ARCHITECTURAL IMPACT

A roof lantern adds a striking design feature both inside and out. It introduces clean lines, symmetry and elegance, becoming a focal point that elevates the overall aesthetic of your home.

IMPROVED THERMAL PERFORMANCE

Our atrium and lantern roofs are engineered with advanced glazing and clever insulating technology, helping to maintain comfortable temperatures year-round while maximising light.

IDEAL FOR EXTENSIONS & OPEN-PLAN LIVING

They are particularly effective in flat-roof extensions, where they transform what could feel like a closed-in space into a bright, welcoming hub of the home.

OUR GUARANTEE

20 YEAR GUARANTEE

PREMIUM STANDARDS
We're regularly vetted and approved by CO Manufacturing to adhere to excellent standards, covering all aspects of your journey from enquiry handling and sales through to surveying, installation and aftercare.

PREMIUM KNOWLEDGE

CO Manufacturing uses the latest technology and skilled craftsmanship to manufacture its products. That's why we're able to offer you an exceptional guarantee on all our products and installations.

PREMIUM PRICE PROMISE
As part of our Premium Retailer status, we're committed to providing a fair and transparent price, every time. We're so confident in the price of our products, that if you find a like-for-like quote elsewhere, we'll match it. Simple.

We are very happy with replacement of glass roof with prefabricated roof on our conservatory. Build quality excellent and project was well oganised, with all workers taking great care in cleaning up after themselves which was a big job in itself.

They worked so hard to finish the job in 3 days! We would thoroughly recommend.

The new conservatory roof were installed and finished within a week. The Project Manager planned and organised the various trades and it worked like clockwork. All the staff were friendly, respectful and highly skilled at their jobs. The quality of both the work and the materials was of an extremely high standard.

I would fully recommend Trent Valley.
